Baar, January 2023

Information: Price adjustment for standing orders

Dear customer,

For years I have managed to keep the prices practically the same. However, the cost situation has changed a lot in a very short time and I cannot avoid having to slightly adjust the prices for standing orders.

The reason for this is the general increase in prices, be it for petrol, insurance, cleaning materials, utensils and machines, as well as vehicle maintenance and other costs. This also has an impact on the wages of my employees.

For you as a customer, it means the following: We will increase the hourly rate by one franc from April 1st 2023 and a further price increase of one franc an hour from January 1st 2024.

We very much hope that you can agree to this. Do you have any questions about the adjustments? Just give us a call or send us an e-mail, we are there for you.

We thank you very much for your understanding and loyalty and we look forward to a continued good cooperation with you.

Kind regards,
nägeli reinigungen & transporte plus ag

Michelle Nägeli
